Transforming Thirteen British Colonies into the American democratic Republic!

The Founding Fathers of America were a group of men (and a few women) who birthed a new country, transforming 13 British colonies into the United States of America. The Founding Fathers convinced the 13 colonies to unite, wrote a Declaration of Independence to King George, fought off his soldiers in the American Revolution, and wrote a Constitution with a Bill of Rights to support their new democratic republic. The first few presidents of the new republic expanded their territory from the original 13 states to include Florida, Texas, and the Louisiana Territory. They established Washington D.C. as the capitol and key institutions including the Supreme Court, the Library of Congress, and universities.

This set includes 108 base cards that include 80 Founding Fathers, the Acts and events that led up to and beyond the Revolutionary War, important battles, and founding documents.
